

IF YOU REALLY WANT TO GO ALL THE WAY

- ▶ Use the Cluster API
 - ▶ Declarative Management isn't just nice for workload but for entire clusters too
- ▶ Read the documentation of clustermgr
- ▶ Since most of you deploy to hetzner anyway
 - ▶ [ccl.pw/cluster-api-hetzner](https://ccl.pw.cluster-api-hetzner)
- ▶ This isn't gonna be easy! But we warned you :)
